DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, 6-10, and 18-21 drawn to an isolated or purified human neurturin growth factor, classified in class 530, subclass 350.
 - II. Claim 61, drawn to a method for detecting growth factor with antibodies, classified in class 435, subclass 7.2.
 - III. Claim 62, drawn to a kit with antibodies, classified in class 530, subclass 387.1.

The inventions are distinct, each from the other because of the following reasons:

The products of inventions I and III, are distinct each from the other, because they are drawn to products having materially different structures and functions.

Inventions of product I and III, and process inventions II are related as product and alternate processes of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process of invention II can use alternatively in any of the materially different products of invention I or III.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their different classifications and the

search required for any one of inventions I-VII is not required for any other invention I-

VII, thus, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must

include an election of the invention to be examined even though the requirement be

traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected

invention, the inventorship must be amended in compliance with 1.48(b) if one or more

of the currently named inventors is no longer an inventor of at least one claim remaining

in the application. Any amendment of inventorship must be accompanied by a petition

under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Pak, whose telephone number is (703) 305-7038. The examiner can normally be

reached on Monday through Friday from 8:30 AM to 2:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor,

Yvonne Eyler, can be reached on (703) 308-6564.

Official papers filed by fax should be directed to (703) 308-4242. Faxed draft or informal

communications with the examiner should be directed to (703) 308-0294.
